THE ART OF A BEAUTIFUL FINISH

Twice a year, LGC Decorators Ltd helps transform the Soane Britain showroom in London, creating beautifully finished interiors that allow each new collection to take centre stage.

These rooms demonstrate how expert decorating provides the essential foundation for exceptional design. Intricate wallcoverings have been carefully hung and precisely matched, while painted panelling, ceilings and architectural details have been prepared and finished to an exacting standard. Every junction, edge and pattern repeat matters, particularly in richly layered interiors where wallpaper, fabric, lighting and handcrafted furniture must work together seamlessly.

The result is an inviting series of rooms with warmth, character and remarkable attention to detail—from the botanical dining setting to the softly patterned bedroom. Although the final transformation appears effortless, achieving this level of finish demands meticulous preparation, specialist skill and close coordination with the wider design team.

LGC Decorators Ltd undertakes high-end residential and commercial decorating projects throughout London, combining traditional craftsmanship with a reliable, professional service.
